OFFICE OF THE MAYOR

eNews Update

June 13, 2009 - Crowfoot CTrain Station

The opening of the Crowfoot CTrain Station signals the latest transportation milestone achieved for Calgarians.

Since 2001, in partnership with other levels of government, The City has invested over \$300 million in improvements to the Crowchild Trail LRT corridor.

The strategic investment of these funds in the transportation system ensures Calgarians continue to enjoy a second-to-none quality of life.

Each of the elements contributing to this project is greater than the sum of their parts. Together these help the City improve mobility for all Calgarians.
