Video Update

June 15, 2009 - Construction Commences on Calgary's Emergency Operations Centre

As Calgary marks the fourth anniversary of the most severe flooding in its history, construction commences on a new Emergency Operations Centre (EOC) to ensure we are ready for any emergency in the future.

When it opens in early 2012, the 53,000-square-foot building will become a command centre where representatives of more than 30 partner agencies can work together during a disaster or major emergency. The state-of-the-art centre will house Calgary Emergency Management Agency staff throughout the year.
